linkedin.com/in/kshema-n-poojary-3bb334203

Professional Summary

Data Analyst with hands-on experience in Power BI dashboard development, SQL (MySQL) querying, and enterprise data reporting. Strong foundation in data cleaning, validation, exploratory data analysis (EDA), and KPI reporting. Proven ability to convert structured datasets into analytics-ready insights that support business intelligence, marketing analysis, and data governance decision-making across enterprise and public-sector environments.

Technical Skills

Business Intelligence & Visualization

- Power BI Desktop & Power BI Service
- Interactive Dashboards & KPI Reporting
- Power Query (Data Transformation)
- Data Modeling & Data Analysis Expressions (DAX)

Advanced Excel

- XLOOKUP, VLOOKUP, HLOOKUP, INDEX-MATCH
- IF, IFS, TEXT, DATE functions
- Pivot Tables, Conditional Formatting, Remove Duplicates
- Excel Dashboard creation

Databases & Querying

- SQL, MySQL
- Joins (INNER, LEFT), Aggregations, Sub-queries, CTEs & window functions
- Data Extraction, Filtering, and Grouping

Data Analysis & Quality

- Python (Pandas, NumPy, Matplotlib)
- Exploratory Data Analysis (EDA), Data Cleaning, Validation & Reconciliation
- Data Quality Metrics & Monitoring

Professional & Soft Skills

- Analytical Thinking & Problem Solving
- Communication, Stakeholder Management & Collaboration

Professional Experience

Freelance Data Analyst – Data Governance

5-Month Contract

SkillNovaa — US Health Care

- Supported a public-sector data governance initiative by analyzing datasets for data quality, metadata completeness, and ownership coverage.
- Conducted data cleaning, validation, and EDA to improve the reliability of governance reporting inputs.
- Contributed to defining and tracking governance KPIs, including ownership assignment, classification coverage, and quality metrics.
- Built Power BI dashboards and executive-ready reports to visualize governance KPIs and data quality trends.
- Delivered data-driven insights supporting compliance monitoring and informed stakeholder decision-making.

Web Data Quality Analyst

Aug 2024 – Aug 2025

Schneider Electric Private Limited – Bangalore

- Owned and supported analytics-ready product and offer datasets used for Power BI dashboards and enterprise reporting.
- Performed end-to-end data validation, reconciliation, and quality checks across thousands of records, consistently maintaining 95%+ data quality KPIs.
- Improved data consistency and resolved quality issues, enabling accurate KPI reporting and reducing reporting rework.
- Collaborated with cross-functional teams to ensure timely and reliable data availability for performance monitoring and analytics consumption.
- Supported 3–4 new product launches per month by validating datasets, ensuring reporting readiness, and maintaining historical data accuracy.

Projects

Data Governance Analytics & Reporting — Freelance Project

SkillNovaa – US Health Care

Power BI, SQL, Python, Excel

- Analyzed governance datasets to assess metadata completeness, data quality, and ownership coverage.
- Performed EDA, data cleaning, and validation to support reliable governance reporting.
- Designed and optimized Power BI dashboards using complex DAX and star schema data models to track governance KPIs and support data-driven decisions.

Product & Offer Data Quality Analytics — Power BI Project

Schneider Electric Private Limited

Power BI, SQL, Excel, STIBO PIM

- Analyzed product and offer datasets to monitor data quality metrics and reporting readiness.
- Developed Power BI dashboards to visualize validation status, KPIs, and data quality trends.
- Applied Power Query for data transformation and DAX for calculated measures.

Customer Shopping Behavior Analysis—GitHub Project

Python, SQL (MySQL), Power BI

- Analyzed 3,900+ transaction records using SQL joins, aggregations, filters, CTEs & window functions.
- Conducted exploratory data analysis (EDA) in Python to identify revenue trends, customer purchasing patterns and actionable business insights.
- Designed and developed interactive Power BI dashboards to monitor KPIs, identify sales trends, customer segmentation and support data-driven business decisions.
- Delivered insights supporting marketing performance analysis and customer retention strategies.

Education

Bachelor of Computer Science Engineering

Srinivas University — 2022

Certifications

- Postgraduate Program in Data Analytics – Skill Espresso Edu Solutions
- PL-900 & PL-300 Certification (Ongoing)

Languages

English — Kannada — Tulu
